

Project CACA is being implemented under the safety policy of the school. The school strives towards an inclusive and child-sensitive learning environment. Effective measures are taken to establish and strengthen prevention and response mechanisms, support services and strategic partnerships with concerned government and non-government organisations. The school continuously builds its capacity and compliance towards a zero-tolerance for child abuse and other safety-related matters like infrastructure, health, hygiene, transportation, personal safety, social and emotional safety, cyber safety, emergency preparedness and disaster management. Children safety and child rights are an inherent part of the school syllabus. All the stakeholders, i.e., children, parents, teachers and non-teaching/support staff, are regularly engaged, sensitised and trained on children safety and various related laws.

Project CACA bibliography/rationale
