# LESSON PLAN FOR TEACHERS

## My Second Safety Workbook

## Dear Teachers

**Deliverables:** All the above instruments and resources, except the instrument ‘Legal and Psychosocial Support for POCSO Survivors’, are provided to schools as part of Project CACA. In addition, Project CACA issues certificates for webinars, training sessions and Project implementation to teachers, non-teaching staff, the School Project Coordinator, the Head of School and the school itself. The Project also facilitates the appointment of external members to the POCSO Committee and the PoSH-ICC.

\*They are available in English, Hindi and regional languages.

**Project Definition:** The United Nations Convention on the Rights of the Child (UNCRC, 1989) defines a child as a person under the age of 18, a definition also adopted by Project CACA. Project CACA (Children Against Child Abuse) is a comprehensive, research-based safety programme for children, active since 2016. It addresses the urgent need to prevent child sexual abuse through curriculum-based interventions under the school safety policy. The goal is to ensure that our children are happy, healthy, and safe.

The programme adopts a child-centred, holistic approach and incorporates a range of tools and resources for all stakeholders—students, parents, teachers, and non-teaching staff. At its core is the CACA Safety Workbook series. Project CACA addresses the academic, legal, and psychological aspects of child safety and well-being.

**The elephant in the room:** The 2007 survey by the Ministry of Women and Child Development (Government of India) revealed that incidents of child sexual abuse (CSA) in India are of epidemic proportions. Abuse affects children of all sexes and age groups. In most cases, the abuser is not a stranger but someone the child already knows.

Although reports of CSA in schools are common, this does not imply that schools are the primary site of abuse. Rather, abuse within schools is more likely to be noticed and reported. Abuse occurring within the family, extended family, neighbourhood, or during domestic and religious functions often remains hidden.

Most children do not disclose abuse. Fear is a key reason—children may fear the abuser or threats made against their loved ones. They may also worry about being blamed, punished, or scolded. Parents, too, may hesitate to report abuse due to social stigma. Gender stereotypes—such as the belief that boys must be brave and protect girls—can further silence male victims. As a result, many abusers go unpunished and may continue to offend. Individuals sexually attracted to prepubescent children are known as paedophiles.

**The way forward:** The good news is that CSA is highly preventable. With a relatively small number of abusers, strategic interventions can significantly reduce its occurrence. Since we cannot always be physically present with our children, the most effective way forward is to empower them against abuse.

An institution- or school-based intervention is one of the most impactful approaches. The CACA Safety Workbooks promote vital behavioural changes among children, parents, teachers, and support staff. Written from the perspective of our children, they empower young learners to recognise and resist manipulative tactics used by abusers.

**Democratic Processes:** The workbooks are age-appropriate, progressive, and rooted in Indian ethos. They emerge from democratic processes, including opinion polls, surveys, focus group discussions, consensus-building sessions, and pilot programmes across India. The content continues to evolve through feedback, peer review, and the guidance of expert advisors and the project committee.

**Constitutional Morality - Life Skills (Mental Health):** The workbooks follow an interdisciplinary approach aligned with the NEP 2020 and require collaboration across subjects. Only around 10% of the content specifically focuses on CSA prevention. These workbooks function as both constitutional morality and life skills books, while also addressing the United Nations Sustainable Development Goals (UNSDG) 2030.

Several chapters naturally integrate into existing timetable periods for English, Physical Education, Environmental Studies, General Knowledge, Social Science, Science, and Computer Science. The morals promoted in the workbooks are grounded in the Constitution of India—civic nationalism, scientific temper, humanism, and the spirit of enquiry and reform. They also include 21st-century values such as gender diversity, child rights, environmental responsibility (e.g., carbon footprint reduction), and organ donation.

The **21st-century skills** covered include **collaboration, resilience**, and the ten universal **life skills** recommended by the World Health Organisation (WHO): **self-awareness, empathy, critical thinking, creative thinking, decision-making, problem-solving, effective communication, interpersonal relationships, coping with stress, and coping with emotions.**

**Curriculum Matrix:** The workbooks are structured around a curriculum matrix built on seven Core Principles: **Mental Health/Well-Being, Emotional/Intelligence Quotient, Safety, Gender Equality/Equity/Parity, Child Rights, Health & Hygiene, Constitutional Morals/Values/Ethics.**

Each core principle is supported by multiple derivatives. For instance, the principle of 'Safety' encompasses infrastructure, transport, cyber safety, health, abuse (personal, social, emotional, and sexual), bullying, protection mechanisms, and reporting and response systems.

**Pedagogy:** The workbooks are primarily co-scholastic and focus on the affective domain in Bloom's Taxonomy. **Green-coloured questions** explore personal dimensions such as behaviour, emotions, opinions, experiences, relationships, values, and medical conditions. These should be approached with empathy and without judgement.

Each chapter highlights its relevant core principles, derivatives, and life skills using a colour-coded text in margin spaces, with key learning areas noted as footnotes.

**Methodology:** Presented in a storybook format, the workbooks depict relatable day-to-day situations faced by children. They deliver the curriculum matrix through diverse formats including stories, poems, role plays, essays, letters, comic strips, hypothetical scenarios, debates, diagrams, algorithmic steps, pledges, and interactive activities. Some stories draw inspiration from Panchatantra, Jataka, and Aesop's Fables.

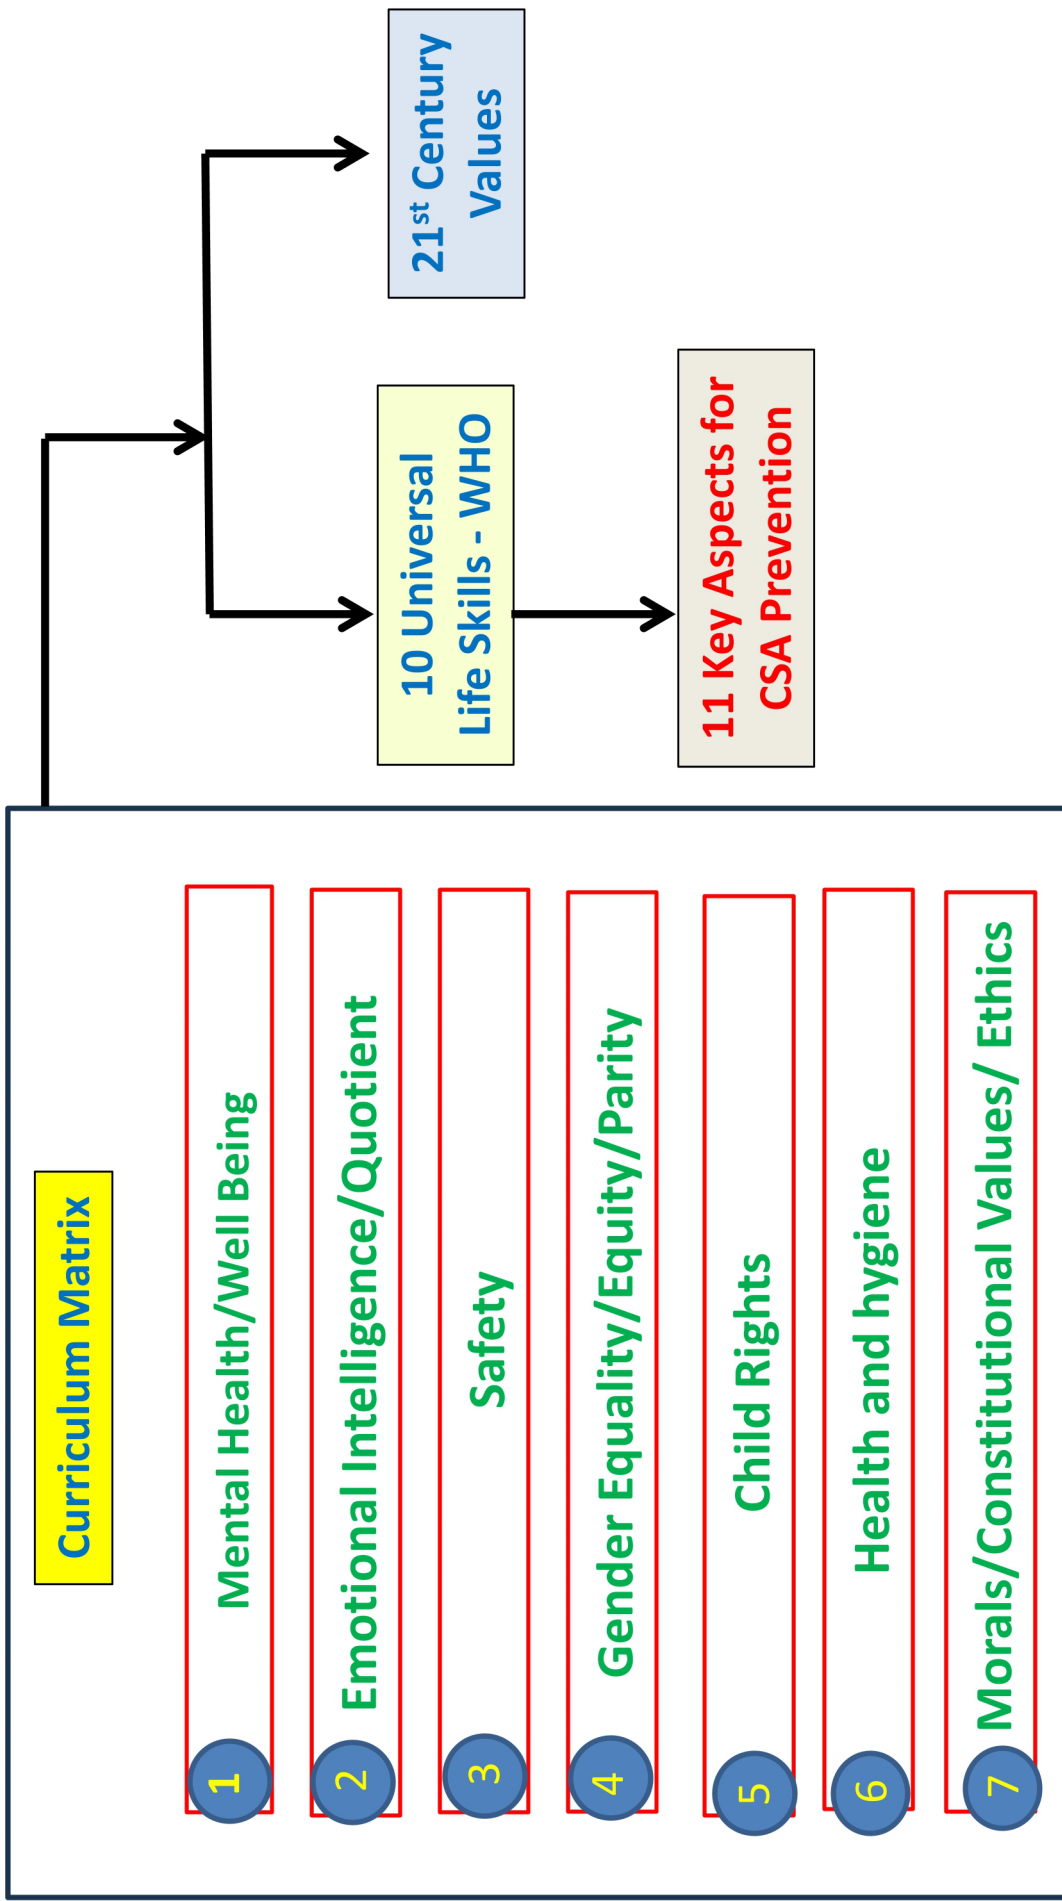

**Dialogue:** The workbooks encourage young readers to express their thoughts, emotions, and behaviours. Their responses enable teachers and parents to initiate open conversations on sensitive subjects that may otherwise be difficult to address. These workbooks are meant to be actively discussed in parent-teacher meetings, sending a strong message—including to potential abusers—that children are being educated about their safety and are encouraged to speak up.

**Key Characters:** Three key characters guide the narrative: Sana (a girl), Arpit (a boy), and Pokso (a tiger). Pokso plays a central role as a trustworthy confidant and symbol of the law. He introduces children to good habits, constitutional morals, safety norms, and legal awareness. The diverse cast of characters challenges stereotypes related to gender and skin colour, and the content promotes inclusivity across religion, gender, disabilities, and race.

## General Instructions for Teachers

1. Teachers are advised to review the complete lesson plan, rubric criteria, and required materials in advance to ensure smooth facilitation of discussions and activities.
2. **Green-coloured questions** in the workbooks explore personal dimensions such as behaviour, emotions, opinions, experiences, relationships, values and medical conditions. These should be approached with empathy and without judgement.
3. Prior to the lesson, teachers should familiarise themselves with activity prompts, discussion questions, and expected learner responses to anticipate possible misconceptions or varied interpretations.
4. The lesson plans prioritise activity-based learning; therefore, adequate time should be allocated for student interaction, sharing, and reflection rather than compressing discussion for content coverage.
5. Time allocations are indicative and may require adjustment depending on learner engagement, pace of discussion, or unforeseen classroom interruptions.
6. Rubrics provided are designed to assess observable skills such as participation, reasoning, collaboration, and clarity of expression, and should be applied through ongoing classroom observation rather than only end-product evaluation.
7. During group tasks, teachers should actively monitor peer interaction to ensure balanced participation and intervene where learners are either disengaged or dominating the task.
8. If learners struggle to initiate discussion or provide limited responses, teachers may use probing questions, examples, or think-aloud modelling to scaffold deeper engagement.
9. In cases of excessive excitement or deviation from the task during interactive activities, teachers should gently redirect focus by restating objectives and time boundaries.
10. If the learner feels hesitant or shy, they may be encouraged through smaller group interactions or written reflections before whole-class sharing.
11. Teachers may adapt activity difficulty, grouping patterns, or response formats (oral, written, visual) to accommodate diverse learner abilities without altering the core learning objective.
12. Informal assessment through observation, questioning, and student explanations during activities should inform real-time instructional adjustments.
13. After the lesson, teachers are encouraged to reflect on the effectiveness of activity design, time allocation, and facilitation strategies to inform future implementation.
14. Review of student responses and rubric evidence should be used to identify learning gaps, misconceptions, and the need for reinforcement or enrichment in subsequent lessons.
15. Extension or enrichment tasks may be provided to learners who complete activities early, while additional support may be offered to those requiring further guidance.

- The People Around You (✓ / X activity)

Teacher scaffolding:

- Do sorting aloud, not silently:
  - “Do we see this person in school?”
  - “Do we meet them with elders?”

Key thinking message (say clearly):

“We don’t decide alone. We decide with parents and teachers.”

Avoid: “Stranger danger” language.

Transition line:

“People help us, and animals are also around us. With animals too, we need rules.”

### 3. Safety with Animals (Sana’s Puppy) (4 minutes)

Workbook used:

- Dog safety rules (only rules section)

Teacher ask the class and elicit answers from 5-6 kids.:

- Why do you think rules exist?
- What keeps children safe.
- Why should we not tease animals?”

Transition line:

“Sometimes, we must stop and think before doing something.”

### 4. Thinking Through a Story (Picture Story) (4 minutes)

Workbook used:

- Picture story (Nancy and the puppy)

Teacher scaffolding:

- Read story panels aloud.
- Pause before answers.
- Ask:

<b>Introduction/opening</b> (5 mins)	Opening Prompt (Whole class, seated): "Think about the first day of this class. How did you feel?"  Children respond using one word only (happy / shy / scared / excited).  Transition: "Today we will read about Sana, Arpit, and Pokso's first day in Class 2."		

**Context Building/  
Workbook in Play**  
(20 mins)

Story + Discussion (Merged):

- Teacher reads the story aloud (selectively, not every line). The teacher can talk about Aishwarya Aunty from [The Character Canvas](#), pg 23.
- Pause at key moments:
  - Arpit feeling shy
  - Asking the teacher for help
  - Helping Salman later

Guided Questions (Oral):

- Why did Arpit feel shy?
- Who helped Arpit?
- How did Arpit help Salman?

Workbook-in-Play Activities (Short & Integrated):

- Maze / turns activity: can be done together on board using finger tracing by calling children 1 by 1.
- Counting steps & turns: children estimate orally together in the class (no exactness stress)
- MCQ on shyness: children vote by show of hands
- Think–pair–share (30 seconds):
  - “In what situations is it okay to ask for help?”

Key Scaffolded Message (Repeated):

“It is okay to do things by ourselves, and it is also okay to ask for help.”

Transition:

“Let’s think about our own experiences now.”

		4. Demonstrate simple decision-making about food habits.
<b>Suggested Flow</b>		
<b>Introduction/opening</b> (5 mins)	Warm-up (Movement-based): Teacher asks children to pretend to open an imaginary lunch box.  Ask: <ul style="list-style-type: none"> <li>● “What do you like opening in your lunch box?” (2–3 responses only)</li> </ul> Bridge: “Today we will learn how our lunch box takes care of us.”  Open chapter.	
<b>Context Building/ Workbook in Play</b> (20 mins)	Teacher narrates the story on pg 13 or plays the video.  After pg 13, pause to ask: <ul style="list-style-type: none"> <li>○ Why couldn’t Arpit open his lunch box?</li> <li>○ Why did the aunt ask him to eat his food?</li> </ul> Concept Building (Visual + Oral): <ul style="list-style-type: none"> <li>● Show food pictures in the workbook. Ask, who is your favorite superhero? Where does his/her power come from?</li> <li>● Say: we are humans and our power comes from Nutrients. Explain further: <ul style="list-style-type: none"> <li>○ Food gives us nutrients.</li> <li>○ Nutrients help us grow, play, and stay healthy</li> </ul> </li> </ul> <b>1. Thumbs Up / Thumbs Down: Healthy vs Junk Food (5 minutes)</b> Teacher calls out or shows pictures of different food items one at a time (e.g., fruit, samosa, milk, chips, dal, soft drink). Learners respond with: <ul style="list-style-type: none"> <li>● Thumbs up if they think the food is healthy</li> <li>● Thumbs down if they think it is junk food</li> </ul> Teacher prompts (do not correct immediately):	

- “Why did you choose thumbs up/down?”
- “Would this food change if eaten every day?”
- “Is this food always junk or only sometimes?”

Briefly note differing opinions on the board to encourage discussion before summarising.

## 2. Food Pyramid: Point and Name (No Memorisation) (5 minutes)

Display a large food pyramid chart or draw a simple one on the board. Invite learners to come forward in turns and:

- Point to a section of the pyramid
- Name one food item that belongs there

Teacher scaffolding:

- Emphasise *frequency* using language like “eat more,” “eat sometimes,” “eat rarely”
- Avoid asking learners to memorise levels or terms

Key message to reinforce:

“The pyramid is a guide, not a test.”

## 3. Fill-in-the-Blanks: Whole-Class Oral Activity (3–4 minutes)

Read out sentences slowly and pause for the class to respond together.

Example:

- “Foods that give us energy are called \_\_\_\_\_.”
- “We should eat fruits and vegetables \_\_\_\_\_ day.”

Teacher tips:

- Encourage choral responses rather than individual answers
- Repeat answers once correctly to reinforce learning

## 4. ‘Cross the Junk Food’: Board Activity (3–4 minutes)

Write or draw a mixed list of food items on the board.

	<p>As a class, ask learners to:</p> <ul style="list-style-type: none"> <li>● Identify which items should be crossed out if eaten too often</li> <li>● Explain <i>why</i> they chose to cross them</li> </ul> <p>Teacher reflection question:</p> <ul style="list-style-type: none"> <li>● “Does this mean we can never eat this food?” Use this to clarify moderation rather than restriction.</li> </ul> <p>Key Message (Repeated): “More colourful food makes us healthy and happy.”</p> <p>Transition: “Let’s see what food we eat every day.”</p>	
<p><b>Recapitulation</b></p>	<p>Ask quickly:</p> <ul style="list-style-type: none"> <li>● Name one healthy food.</li> <li>● Name one food we should eat less.</li> <li>● Why should we eat fruits and vegetables?</li> </ul> <p><b>Closing Line:</b> “Eating right helps us grow strong and happy.”</p>

- “Was Arpit’s body giving him a message?”

One learner responds.

Chunk 3: Pokso notices

Pause and ask:

- “What did Pokso do first, ignore or notice?”

Learners step:

- One step forward = noticed
- Stay still = ignored

Clarify: noticing is a safety action.

Chunk 4: The choice not to remove the sweater

Ask:

- “Why might someone stay uncomfortable?”

Give options, not open disclosure:

- Didn’t want to be rude
- Didn’t want to hurt feelings
- Thought it was not important

Learners point to the option on the board.

Chunk 5: Telling an adult

Ask:

- “What changed when an adult was told?”

Learners respond with one-word answers only:

- safer
- lighter
- Better

- “Safe touches make us feel happy and good.”
- “Unsafe touches make us feel something is wrong.”
- “Accidental touches happen by mistake.”

Scaffold Prompt:

- “While I read, touch your heart if it feels good, touch your head if it feels confusing.”

Teacher shows 4–5 pictures from the chapter (hug, doctor visit, push, falling while playing).

Children respond by:

- Thumbs up = Safe
- Hand stop = Unsafe
- Shrug shoulders = Accidental

Teacher reinforces (one-line scaffold):

- “If your body feels confused or bad, we stop and think.”

Emotion Check-in: Teacher points to emotion faces from the chapter.

- Asks:
  - “Which face comes with unsafe touch?”
  - “Which face comes with a safe touch?”

Children point, not explain.  
(No pressure, no disclosure.)

Transition Line:

“Your feelings help you decide what is okay for you.”

Children complete one short response:

- “*Who do you like hugs from?*” (can draw or write one)

## Suggested Flow

### Introduction/opening (5 mins)

Activity-based hook (no circle time):

- Teacher shows a closed box or bag and asks:
  - “If I put something inside and don’t tell anyone, is it always okay?”
- Allow 2–3 quick responses.
- Transition line:
  - “Today’s story is about a secret that felt exciting at first, but later became unsafe.”

(→ Smoothly leads into story without moralizing.)

### Context Building/ Workbook in Play (20 mins)

1. Shared Reading with Pause Points (Scaffolding) or play the video through QR.

- Teacher reads *The Secret Cave* aloud.
- Pauses briefly at:
  - Pokso going alone
  - Finding the cave
  - Deciding whether to tell
- At each pause, ask one guiding question only, for example:
  - “How do you think Pokso is feeling now?”
  - “Who could help Pokso here?”

(This scaffolds emotional awareness and decision-making without over-discussion.)

2. Think–Point–Say Activity (Play-way)

- Teacher shows pictures from the chapter.
- Children:
  - Point thumbs up if it feels safe
  - Point thumbs down if it feels unsafe

	<ul style="list-style-type: none"> <li>○ Say one word: “safe” or “unsafe”</li> </ul> <p>(No writing yet. Keeps energy steady.)</p> <p>3. <b>Take home (Homework)</b>	Draw or write: <ul style="list-style-type: none"> <li>• "One person I can always tell if I feel scared or confused."</li> </ul> Parents were encouraged to discuss the drawing.	
<b>Possible hiccups:</b> 1. Child thinks <i>all</i> secrets are bad → Re-emphasise "surprise vs unsafe secret" using examples. 2. Child becomes quiet or withdrawn → Allow drawing or pointing instead of speaking.	<b>Cues for Quick Progress Tracking</b>  1. Can say who Pokso should tell.  2. Can correctly identify unsafe situations.  3. Responds appropriately during safe/unsafe activity.	<b>The Confidential Green Zone:</b>  "Is there any secret that made you feel scared or confused?"  This question relates to the child's personal safety and emotions and must be handled privately and sensitively.
<b>Scholastic Questions</b>  1. Where was Pokso roaming alone? Answer: In the jungle. 2. What did Pokso forget to bring? Answer: His water bottle. 3. What did Pokso discover while searching for water? Answer: A secret cave. 4. Why was keeping the cave a secret unsafe? Answer: Because his parents could not help him. 5. Who should children tell secrets to? Answer: Parents or trusted adults. 6. What feelings did Pokso have when he was alone? Answer: Confused or scared. 7. Is it safe to keep secrets from parents? Answer: No. 8. What should you do if something feels unsafe? Answer: Tell a trusted adult.

Suggested Flow			
<p><b>Introduction/opening</b> (5 mins)</p>	<p>Teacher asks children to silently show with their face:</p> <ul style="list-style-type: none"> <li>○ “How do you look when someone hurts you?”</li> <li>○ “How do you look when someone says sorry?”</li> </ul> <p>Teacher connects:</p> <ul style="list-style-type: none"> <li>○ “Today’s stories are about hurting others, stopping bullying, and saying sorry the right way.”</li> </ul> <p>(Transition into reading without moral lecture.)</p>		
<p><b>Context Building/ Workbook in Play</b> (20 mins)</p>	<p>1. Action First: Freeze &amp; Feel</p> <p>Teacher Action: Say:</p>		

“Everyone stand up. When I say FREEZE, stop and listen.”

Call out actions:

- “Someone pulls your hair.”
- “Someone pushes you while playing.”
- “Someone says ‘Stop it!’”

Children freeze and show a face or body posture (sad, angry, scared).

Transition Line:

“These actions happened in today’s story. Let us see what happened next.”

## 2. Selective Story Reading (Not Full Reading)

Teacher Action:

Read only key parts:

- Surya pulling Maya’s hair
- Surya pushing Arpit
- Preeti’s mother stopping the fight

Do not read continuously.

After each part, ask one question:

- “Was this safe or unsafe?”
- “Did this help or hurt?”

Children respond using:

- Hand up = safe/help
- Hand down = unsafe/hurt

Transition Line:

“When hurting continues again and again, it is called bullying.”

## 3. Sorting Activity: Hurt vs Help

Teacher Action:

On the board, draw two columns:

- HURTS
- HELPS

Call out actions from the chapter:

	<ul style="list-style-type: none"> <li>● Pulling hair</li> <li>● Saying sorry</li> <li>● Getting first aid</li> <li>● Laughing at someone</li> <li>● Telling a grown-up</li> </ul> <p>Children come and point or say where it belongs.</p> <p>Transition Line:  “Hurting breaks things. Helping and saying sorry fixes them.”</p> <p>4. Apology Practice: Say It, Mean It</p> <p>Teacher Action:  Model clearly:</p> <ul style="list-style-type: none"> <li>● “I am sorry for ____.”</li> <li>● “I will try not to do it again.”</li> </ul> <p>Children practise orally, no writing required:</p> <ul style="list-style-type: none"> <li>● Turn to your partner and say one apology sentence.</li> </ul> <p>Transition Line:  “Mistakes happen. What matters is what we do after.”</p> <p>5. Workbook Anchor</p> <p>Teacher Action:  Children complete one short workbook question only  (example: identifying bullying or writing one apology line).</p> <p>Explain:  “You can finish the rest at home</p>
<p><b>Recapitulation</b></p>	<p>Teacher asks:</p> <ol style="list-style-type: none"> <li>1. What is bullying?</li> <li>2. Who helps when bullying happens?</li> <li>3. What does a real sorry include?</li> <li>4. How do we fix mistakes?</li> </ol> <p>Teacher closes:</p> <ul style="list-style-type: none"> <li>● “Hurting others is wrong. Saying sorry and changing behaviour is right.”</li> </ul>

<p><b>Take home (Homework)</b></p>	<p>Write <b>one sentence</b> only.</p> <ul style="list-style-type: none"> <li>• I will say <b>sorry</b> when I _____. (Example not to be written on the board, only explained orally.)</li> </ul> <p>Check all the ingredients of your first-aid box at home.</p>	
<p><b>Possible hiccups:</b></p> <ol style="list-style-type: none"> <li>1. Children may treat bullying as normal play. → The Teacher should clearly state that play stops being okay when someone is hurt or asked to stop.</li> <li>2. Some children may feel awkward or giggle during the discussion. → The Teacher should keep a calm, factual tone and continue without reacting.</li> <li>3. Children may think saying sorry is enough by itself. → The Teacher should explain that a real apology also means changing behaviour.</li> <li>4. Some children may confuse accidents with bullying. → The Teacher should remind them that bullying happens again and again on purpose.</li> </ol>	<p><b>Cues for Quick Progress Tracking</b></p> <ol style="list-style-type: none"> <li>1. 	<p>Teacher cues during role-play:</p> <ul style="list-style-type: none"> <li>● “Speak clearly and loudly.”</li> <li>● “Tell the adult what happened.”</li> <li>● “Stay with the hurt person.”</li> </ul> <p>Pause &amp; Reflect (2–3 minutes): Ask the class:</p> <ul style="list-style-type: none"> <li>● “What did Child B do correctly?”</li> <li>● “Why is calling a trusted adult important?”</li> <li>● “Who can be a trusted adult at school?”</li> </ul> <p>Do not critique the acting. Focus only on actions.</p> <p>Key Reinforcement Line (1 minute): “When someone is hurt, we don’t stay silent. We ask for help and inform a trusted adult.”</p> <p>Teacher reinforces: “In emergencies, safety comes first.”</p>	
<p><b>Recapitulation</b></p>	<p>Ask aloud (whole class answers):</p> <ul style="list-style-type: none"> <li>• What should we do before making a choice?</li> <li>• Who do we usually say NO to?</li> <li>• When is it okay to take help from a stranger?</li> </ul> <p>Teacher sums up: “Think first. Trust your feelings. Tell a trusted grown-up.”</p>	
<p><b>Take home (Homework)</b></p>	<ol style="list-style-type: none"> <li>1. Draw one situation where you made a safe choice.</li> <li>2. Ask your parents: “Who should I call if I need help?”</li> </ol> <p>(No forced writing. Drawing + talking is enough.)</p>	
<p><b>Possible hiccups:</b></p> <ol style="list-style-type: none"> <li>1. Children may think all strangers are bad.</li> </ol>	<p><b>Cues for Quick Progress Tracking</b></p> <ol style="list-style-type: none"> <li>1. Teacher observes whether the child.</li> <li>2. Identifies unsafe</li> </ol>	<p><b>The Confidential Green Zone:</b></p> <p>“Have you ever felt confused or scared when someone asked you to do something?”</p>

<p>Strategy: Repeatedly clarify the difference between normal situations and emergencies.</p> <p>2. Children may want to give “right answers” instead of real feelings.</p> <p>Strategy: Normalize all feelings and avoid correcting emotions.</p> <p>3. Some children may share personal incidents unexpectedly.</p> <p>Strategy: Listen calmly and redirect detailed sharing to a trusted adult later.</p> <p>4. Fear may increase after discussing danger.</p> <p>Strategy: End with reassurance and clear safety rules.</p>	<p>situations verbally.</p> <p>3. Explains why a choice is safe or unsafe.</p> <p>4. Uses feeling words like scared, unsure, safe.</p> <p>5. Knows whom to approach for help.</p>	<p>This question may reveal personal safety experiences and must be handled privately.</p>
