# LESSON PLAN FOR TEACHERS

## My Ninth Safety Workbook

## Dear Teachers

**Deliverables:** All the above instruments and resources, except the instrument ‘Legal and Psychosocial Support for POCSO Survivors’, are provided to schools as part of Project CACA. In addition, Project CACA issues certificates for webinars, training sessions and Project implementation to teachers, non-teaching staff, the School Project Coordinator, the Head of School and the school itself. The Project also facilitates the appointment of external members to the POCSO Committee and the PoSH-ICC.

\*They are available in English, Hindi and regional languages.

**Project Definition:** The United Nations Convention on the Rights of the Child (UNCRC, 1989) defines a child as a person under the age of 18, a definition also adopted by Project CACA. Project CACA (Children Against Child Abuse) is a comprehensive, research-based safety programme for children, active since 2016. It addresses the urgent need to prevent child sexual abuse through curriculum-based interventions under the school safety policy. The goal is to ensure that our children are happy, healthy, and safe.

The programme adopts a child-centred, holistic approach and incorporates a range of tools and resources for all stakeholders—students, parents, teachers, and non-teaching staff. At its core is the CACA Safety Workbook series. Project CACA addresses the academic, legal, and psychological aspects of child safety and well-being.

**The elephant in the room:** The 2007 survey by the Ministry of Women and Child Development (Government of India) revealed that incidents of child sexual abuse (CSA) in India are of epidemic proportions. Abuse affects children of all sexes and age groups. In most cases, the abuser is not a stranger but someone the child already knows.

Although reports of CSA in schools are common, this does not imply that schools are the primary site of abuse. Rather, abuse within schools is more likely to be noticed and reported. Abuse occurring within the family, extended family, neighbourhood, or during domestic and religious functions often remains hidden.

Most children do not disclose abuse. Fear is a key reason—children may fear the abuser or threats made against their loved ones. They may also worry about being blamed, punished, or scolded. Parents, too, may hesitate to report abuse due to social stigma. Gender stereotypes—such as the belief that boys must be brave and protect girls—can further silence male victims. As a result, many abusers go unpunished and may continue to offend. Individuals sexually attracted to prepubescent children are known as paedophiles.

**The way forward:** The good news is that CSA is highly preventable. With a relatively small number of abusers, strategic interventions can significantly reduce its occurrence. Since we cannot always be physically present with our children, the most effective way forward is to empower them against abuse.

An institution- or school-based intervention is one of the most impactful approaches. The CACA Safety Workbooks promote vital behavioural changes among children, parents, teachers, and support staff. Written from the perspective of our children, they empower young learners to recognise and resist manipulative tactics used by abusers.

**Democratic Processes:** The workbooks are age-appropriate, progressive, and rooted in Indian ethos. They emerge from democratic processes, including opinion polls, surveys, focus group discussions, consensus-building sessions, and pilot programmes across India. The content continues to evolve through feedback, peer review, and the guidance of expert advisors and the project committee.

**Constitutional Morality - Life Skills (Mental Health):** The workbooks follow an interdisciplinary approach aligned with the NEP 2020 and require collaboration across subjects. Only around 10% of the content specifically focuses on CSA prevention. These workbooks function as both constitutional morality and life skills books, while also addressing the United Nations Sustainable Development Goals (UNSDG) 2030.

Several chapters naturally integrate into existing timetable periods for English, Physical Education, Environmental Studies, General Knowledge, Social Science, Science, and Computer Science. The morals promoted in the workbooks are grounded in the Constitution of India—civic nationalism, scientific temper, humanism, and the spirit of enquiry and reform. They also include 21st-century values such as gender diversity, child rights, environmental responsibility (e.g., carbon footprint reduction), and organ donation.

The **21st-century skills** covered include **collaboration, resilience**, and the ten universal **life skills** recommended by the World Health Organisation (WHO): **self-awareness, empathy, critical thinking, creative thinking, decision-making, problem-solving, effective communication, interpersonal relationships, coping with stress, and coping with emotions.**

**Curriculum Matrix:** The workbooks are structured around a curriculum matrix built on seven Core Principles: **Mental Health/Well-Being, Emotional/Intelligence Quotient, Safety, Gender Equality/Equity/Parity, Child Rights, Health & Hygiene, Constitutional Morals/Values/Ethics.**

Each core principle is supported by multiple derivatives. For instance, the principle of 'Safety' encompasses infrastructure, transport, cyber safety, health, abuse (personal, social, emotional, and sexual), bullying, protection mechanisms, and reporting and response systems.

**Pedagogy:** The workbooks are primarily co-scholastic and focus on the affective domain in Bloom's Taxonomy. **Green-coloured questions** explore personal dimensions such as behaviour, emotions, opinions, experiences, relationships, values, and medical conditions. These should be approached with empathy and without judgement.

Each chapter highlights its relevant core principles, derivatives, and life skills using a colour-coded text in margin spaces, with key learning areas noted as footnotes.

**Methodology:** Presented in a storybook format, the workbooks depict relatable day-to-day situations faced by children. They deliver the curriculum matrix through diverse formats including stories, poems, role plays, essays, letters, comic strips, hypothetical scenarios, debates, diagrams, algorithmic steps, pledges, and interactive activities. Some stories draw inspiration from Panchatantra, Jataka, and Aesop's Fables.

**Dialogue:** The workbooks encourage young readers to express their thoughts, emotions, and behaviours. Their responses enable teachers and parents to initiate open conversations on sensitive subjects that may otherwise be difficult to address. These workbooks are meant to be actively discussed in parent-teacher meetings, sending a strong message—including to potential abusers—that children are being educated about their safety and are encouraged to speak up.

**Key Characters:** Three key characters guide the narrative: Sana (a girl), Arpit (a boy), and Pokso (a tiger). Pokso plays a central role as a trustworthy confidant and symbol of the law. He introduces children to good habits, constitutional morals, safety norms, and legal awareness. The diverse cast of characters challenges stereotypes related to gender and skin colour, and the content promotes inclusivity across religion, gender, disabilities, and race.

## General Instructions for Teachers

1. Teachers are advised to review the complete lesson plan, rubric criteria, and required materials in advance to ensure smooth facilitation of discussions and activities.
2. **Green-coloured questions** in the workbooks explore personal dimensions such as behaviour, emotions, opinions, experiences, relationships, values and medical conditions. These should be approached with empathy and without judgement.
3. Prior to the lesson, teachers should familiarise themselves with activity prompts, discussion questions, and expected learner responses to anticipate possible misconceptions or varied interpretations.
4. The lesson plans prioritise activity-based learning; therefore, adequate time should be allocated for student interaction, sharing, and reflection rather than compressing discussion for content coverage.
5. Time allocations are indicative and may require adjustment depending on learner engagement, pace of discussion, or unforeseen classroom interruptions.
6. Rubrics provided are designed to assess observable skills such as participation, reasoning, collaboration, and clarity of expression, and should be applied through ongoing classroom observation rather than only end-product evaluation.
7. During group tasks, teachers should actively monitor peer interaction to ensure balanced participation and intervene where learners are either disengaged or dominating the task.
8. If learners struggle to initiate discussion or provide limited responses, teachers may use probing questions, examples, or think-aloud modelling to scaffold deeper engagement.
9. In cases of excessive excitement or deviation from the task during interactive activities, teachers should gently redirect focus by restating objectives and time boundaries.
10. If the learner feels hesitant or shy, they may be encouraged through smaller group interactions or written reflections before whole-class sharing.
11. Teachers may adapt activity difficulty, grouping patterns, or response formats (oral, written, visual) to accommodate diverse learner abilities without altering the core learning objective.
12. Informal assessment through observation, questioning, and student explanations during activities should inform real-time instructional adjustments.
13. After the lesson, teachers are encouraged to reflect on the effectiveness of activity design, time allocation, and facilitation strategies to inform future implementation.
14. Review of student responses and rubric evidence should be used to identify learning gaps, misconceptions, and the need for reinforcement or enrichment in subsequent lessons.
15. Extension or enrichment tasks may be provided to learners who complete activities early, while additional support may be offered to those requiring further guidance.

**Scholastic Questions**

**1. Why does the poet repeat self-affirming lines in the poem?**

To show growth in self-acceptance and confidence.

**2. What happens to the heart during an adrenaline rush?**

The heart rate increases.

**3. What causes a generation gap between parents and children?**

Different life experiences and social conditions.

**4. Name one emotion Sana or Arpit experiences that is common among teenagers.**

Confusion / excitement / anger (any one).

**5. Why is exercise helpful during adolescence?**

It releases extra energy and reduces stress.

Mini Role Play (2 learners):

- One = Sana
- One = Parent

Prompt:

“Convince your parents to go on a school trip - without shouting.”

Class observes:

- Tone
- Choice of words
- Calm vs anger

Transition:

“Notice how respect changes the conversation.”

Now introduce Respect using examples from the text (library, calling names, hitting).

Scene 3: “It Feels Good to Be Me” – Self-Esteem (5 minutes)

Mode: Reflection-in-action

Ask learners to underline lines where:

- Sana speaks confidently
- Adults change their mind

Facilitator gently defines:

“Thinking of yourself as a valuable person is called self-esteem.”

Quick oral check:

- “Does shouting show high or low self-esteem?”

Scene 4: Kite Story & Emotions (7 minutes)

Mode: Situation analysis + emotional literacy

Ask:

“Is being different the same as being unequal?”

Students:

- Show thumbs up or down
- 2 learners justify

Link to:

- RPwD Act 2016
- Inclusive education

Transition line:

“If dignity belongs to everyone, then who controls our body, space, and privacy?”

Scene 3: Body, Boundaries & Abuse (6 minutes)

Text focus:

- Types of abuse
- Private parts
- Boundaries

Activity: *Boundary Circles (Imaginary)*

Facilitator says:

“Imagine three circles around you—  
Inner (trusted), middle (friends), outer (strangers).”

Ask:

- Who can hug you?
- Who must ask permission?

Key message (spoken, not lectured):

- Boundaries change
- Consent matters

	<ul style="list-style-type: none"> <li>• Abuse is never the victim’s fault</li> </ul> <p>Transition line:</p> <p>“Sometimes, what traps us isn’t fear—it’s silence. **Scholastic Questions**

**1. Why did Zakir Sir ask learners to imagine being blindfolded?**

To help them understand how blind people experience the world.

**2. What kind of teacher is Zakir Sir? Give one reason.**

He is empathetic because he helps learners understand feelings and safety.

**3. Why is it important to respect people who are differently abled?**

Because everyone deserves dignity and equal respect.

**4. What does inclusive education mean?**

Education where all children learn together with support.

**5. Which senses become stronger for some blind people?**

Hearing, touch, and smell.

**6. Why is touch important in reading Braille?**

Because Braille letters are felt using fingers.

Chapter	4	IN PURSUIT OF HAPPINESS	
COMPETENCIES		Suggested Facilitator: <input checked="" type="checkbox"/> CACA teacher,	Explicit (Key message) Learning outcome(s):

<p><b>Core principle(s): Mental Health &amp; Well-Being:</b> Adolescence Issues-Substance Abuse   <b>Emotional/ Intelligence Quotient</b></p> <p><b>WHO Life skill(s): Critical Thinking</b></p>	<p><input type="checkbox"/> Parent <input type="checkbox"/> Grandparent <input type="checkbox"/> Specific Subject Teacher</p>	
<p><b>Methodology:</b> Narrative</p>	<p><b>Other resources:</b> 1. Movie: The pursuit of happiness</p>	<p><b>Implicit (Key message) Learning outcome(s):</b> 1. The learners will be able to analyse examples of happiness to distinguish between short-term pleasure and long-term well-being. 2. Apply critical thinking to question claims related to products, prices, and happiness. 3. Reflect on personal sources of happiness beyond material consumption.</p>
<b>Suggested Flow</b>		
<p><b>Introduction/opening</b> (5 mins)</p>	<p>Hook: “Instant Happiness Test”</p> <p>Facilitator says:</p> <p style="padding-left: 40px;">“If I give you pizza, phone data, and a holiday today—will you be happy forever?”</p> <p>Learners respond freely.</p> <p>Transition (very important):</p> <p style="padding-left: 40px;">“So happiness feels simple... but this chapter asks a dangerous question: <i>What if what makes us ‘feel good’ is actually trapping us?</i>”</p> <p>Write on board: “Happiness: Feeling OR Thinking?”</p>	
<p><b>Context Building/ Workbook in Play</b> (25 mins)</p>	<p>Activity 1: Emotions vs Feelings – The Tiger Test (6 mins)</p>	

Read aloud (shortened):

- Circus tiger vs jungle tiger

Play-way prompt:

- “Close your eyes. Imagine the tiger is in a circus.”
- “Now imagine you are lost in a jungle.”

Quick pair-share:

- What emotion do you feel?
- How are you feeling now?

Key scaffolded takeaway (spoken, not dictated):

“Emotions are automatic. Feelings are learned—and can be controlled.”

Smooth transition:

“If feelings can be shaped... who else might be shaping them?”

Activity 2: The Boiling Frog → Addiction & Ads (7 mins)

Tell the boiling frog story dramatically.

Freeze-frame question:

- “At which moment should the frog have jumped?”

Bridge explicitly:

“This frog is not weak.  
It just didn’t notice the change.  
That’s exactly how unhealthy habits and ads work.”

Show:

- Smoking image / junk food reference (from text)

Workbook link:

✓ Question E or D (oral discussion, not written)

Transition:

“But ads don’t just use fear... they use *happiness*.”

Activity 3: Ad Traps Game – ‘Spot the Trick’ (8 mins)

Group Play (very fast):

Divide class into 3–4 groups.

Assign each one trap orally:

- Nostalgia trap
- Numbers trap (₹99 vs ₹100)
- Quantity trap (popcorn)
- Geometry trap (pizza)

Each group answers:

- “What is the trick?”
- “Why do people fall for it?”

Facilitator connects all answers aloud:

“Different tricks, same goal:  
make you feel, not think.”

Critical thinking moment:

“So are we really choosing happiness—or being  
sold for it?”

Activity 4: Real vs Chemical Happiness (4 mins)

Very brief storytelling:

- Farmer + serotonin example

Think–raise hand:

- “Medicine helped—was that wrong?”
- “Alcohol gives happiness—yes or no?”

Clarify gently:

“Relief is not the same as happiness. Relief is short  
term and one desires more everytime. Happiness is  
more long-term and makes one feel content.”

	<p>✓ Do Question B or C orally</p> <p>Transition to closure:</p> <p>“So after all these traps... what does REAL happiness look like?”</p>	
<p><b>Take home (Homework)</b></p>	<ol style="list-style-type: none"> <li>1. **3. What is serotonin and why is it important?**

It is a brain chemical that helps control mood and well-being.

**4. Why are emotions called instinctive?**

Because they happen automatically without thinking.

**5. Why does ₹99 feel cheaper than ₹100?**

Because people focus on the number of digits, not the difference.

**6. Why is average salary sometimes misleading?**

Because a few high salaries can change the average.

- “Men cannot give birth”

Transition line:

“If society decides roles, then history should show change... right?”

Scene 3: History Speaks Back (Harvard Girls + Lists) (6 minutes)

Show the ‘Top 5’ lists (mostly men).

Ask:

- “Does this mean women were not intelligent?”

Let learners respond.

Reveal explanation from text:

- Less access
- Less opportunity
- Pay gap

Quick reflection question:

“Why do recent lists have more women?”

Transition:

“But stereotypes don’t live only in history... they live in daily life too.”

Scene 4: Comedy of Genders – Pronoun Swap (6 minutes)

Read 1 short excerpt aloud (NOT the full story).

Pause and ask:

- “Did anything feel strange?”
- “Why?”

Reveal the pronoun swap.

Think–pair–share:

- “Which action felt ‘odd’ and why?”

	<p>Key scaffold (very important):</p> <p style="text-align: center;">“The action didn’t change. Only our thinking did.”</p> <p>Bridge to workbook:</p> <p style="text-align: center;">“Now let’s see how deeply these ideas sit inside us.”</p>

**3. Kajal solves maths using formulas, Birsa using images. What does this show about intelligence?**

Intelligence can be expressed in different ways.

**4. What does the word ‘stereotype’ mean in the chapter?**

A fixed belief about a group that may not be true.

**5. Why were there fewer women in old professional lists?**

Due to lack of access and opportunity.

She is doing something smarter — she is <i>thinking before</i></p>

*choosing.”*

Scene 2: The Eight Questions – Tool, Not Answer (7 minutes)

Method: Tool-as-Game

- Introduce the Eight Questions as a *decision filter*, not a checklist
- Divide class into 4 groups
- Each group takes 2 questions and explains:
  - Why this question matters in real life

Facilitator scaffolding line:

“Good decisions don’t come from bravery alone — they come from clarity.”

Transition:

“But sometimes, the danger is not obvious... sometimes it hides behind friendship.”

Scene 3: Meena’s Story – When Things Go Wrong Online (10 minutes)

Method: Guided listening (no dramatics)

- Narrate key parts (online friend → pictures → blackmail)

Activity: “Stop the Story”

Ask:

- Where should Meena have stopped?
- What was the turning point?
- Who helped *without blaming*?

Highlight:

- Sana’s response = critical thinking + care
- Teacher’s response = support, not punishment

Transition:

	<p>“So whether it is friendship, online games, secrets, or pressure — the real question is not <i>‘What should I do?’</i> It is <i>‘How do I decide?’</i></p> <p><i>The simple answer is to always pause, think, and ask yourself the 8 questions!”</i></p>

Mini-check:

- Ask:  
“If it happens once, is it bullying?”  
(Let learners reason.)

Smooth transition:

“Bullying doesn’t look the same every time.  
Sometimes it leaves marks, sometimes it doesn’t.”

C. Types of Bullying – Sorting Game (6 minutes)

Play-way activity:

- The facilitator reads short situations aloud (from text examples).
- Learners show:
  - Hand - for Physical
  - Cross - for Psychological
  - Mouth covered - for Non-verbal

(You don’t need to cover *all* types in depth — just anchor understanding.)

Key scaffold:

- Emphasise:  
  
“No marks doesn’t mean no pain. It just means that the pain is even harder to identify and fix”

Transition:

“Now the most powerful people in bullying situations are often... the ones watching.”

**Scholastic Questions**

**1. Name any two types of bullying.**

Physical and verbal bullying.

**2. Who is a bystander?**

A person who sees bullying but is not involved.

**3. Why is it important to tell a trusted adult about bullying?**

Because adults can help stop it safely.

**4. What is cyberbullying?**

Bullying done using the internet or mobile phones.

**5. Why should personal information be kept private online?**

To stay safe and avoid misuse.

Students vote (thumbs up/down):

- Easy to guess?
- Hard to guess?

Teacher scaffolding

- Introduce words naturally:
  - Hacker
  - Guess
  - Crack
- Explain:

“Hackers don’t break doors.  
They guess patterns.”

Transition:

“So if guessing is easy... we need extra safety.”

Lead to OTP

Scene 3: OTP & Mnemonics (6 minutes)

Mini discussion

- “When have you seen a message with numbers that expire?”

Explain OTP simply

- One-time
- Short time
- Extra lock on the door

Workbook Link

- Mention mnemonic activity:

- “Our brain loves shortcuts.”

Teacher does NOT finish mnemonic fully

- Shows *idea*, not completion.

Transition:

“But even with passwords, the Internet knows a LOT about us...”

Move to online behaviour

Scene 4: Online Behaviour & Safety Rules (7 minutes)

Think–Pair–Share

- Ask 2–3 questions from the list:
  - Have you browsed a website?
  - Used OTP?
  - Play online games?

Picture Discussion

- Students describe what they see (no judgement).

Teacher

- Co-creates 3 safety rules with class
- Links to text rules (no lecturing)

Transition:

“Now computers are not just tools... they are starting to think.”

Introduce AI

Scene 5: AI – Point to Ponder (5 minutes)

Teacher narrates scenario

- Driverless car
- Child vs passenger

**3. Name two safety rules for using the internet.**

Do not share passwords; do not talk to strangers.

**4. What is an OTP and why is it safe?**

A one-time password that works only once and increases safety.

**5. What is Artificial Intelligence?**

Machines that can think or act like humans.

**6. Why can computers not think like humans?**

Because they do not have emotions or values.

- Encourage answers like “*both*” or “*none*”

Key Probe (don’t judge):

- “Can *both* sides ever be weak?”

Transition

“If we naturally support the weaker side, how did we learn what is right or wrong in the first place?”

Segment 2: Reward, Punishment & Family (6 minutes)

Quick Reflection (oral):

- One reward they remember
- One punishment they remember

Facilitator links:

“As children, rewards and punishments guide us. But as we grow, we are expected to act rightly even without them.”

Workbook Question C/D (Selective):

- Ask learners to answer only ONE question orally

Transition

“But society doesn’t work only on feelings. It also works on rules and laws.”

Segment 3: Equality vs Equity (6 minutes)

Visual imagination (no projector needed):

“Three people watching a match over a wall...”

Ask:

- “Is giving everyone the *same* box fair?”
- “Who actually needs help?”

Workbook Question G/H (Group opinion):

<p><b>Scholastic Questions</b></p> <p><b>1. What is a moral dilemma?</b> A situation where choosing is difficult because all options have problems.</p> <p><b>2. Why is the “weaker side” often supported in moral situations?</b> Because they have less power or protection.</p> <p><b>3. What is the difference between equality and equity?</b> Equality gives the same to all; equity gives according to need.</p> <p><b>4. Why are laws important in society?</b> They help maintain order and fairness.</p> <p><b>5. Why do humans depend on others to survive?</b> Humans are social beings who need care and cooperation.</p> <p><b>6. Why can punishment alone not make people moral?</b> Because true morality comes from understanding, not fear.</p>

- Probation

Think–Pair–Share:

- “What was Yuvaraj thinking *before*?”
- “What changed *after*?”

Link to:

- Juvenile Justice Board
- Probation
- Reformation, not revenge

Transition:

“Yuvaraj broke the law. But some children are not offenders — they are victims.”

Scene 4: Rights Protection (POCSO + PoSH) (5 min)

Do NOT explain everything.

Activity: “One Rule That Protects”

Divide class into small groups.

Each group picks ONE protection rule from:

- POCSO
- PoSH

They explain it in their own words.

Focus on:

- Child-friendly police
- Identity protection
- Support systems

Transition:

“Rights don’t exist alone. They walk with

	responsibility.”	
<b>Take home (Homework)</b>	<p>1. Choose ONE helpline or law mentioned and explain:</p> <ul style="list-style-type: none"> <li>● Who it helps</li> <li>● When it should be used</li> </ul> <p>2. Listen to the audio from the QR Code embedded within the chapter - Page 71</p>

Shows empathy in responses	<b>The Confidential Green Zone: Explained</b> <p>“Have you ever seen or heard about a situation where a child was punished when they needed help instead?”</p> <p>This question may connect to the child’s own life experiences and should not be discussed publicly to ensure emotional safety.</p>
<b>Scholastic Questions</b> <p><b>1. Who decides what happens to a child who breaks the law?</b> The Juvenile Justice Board.</p> <p><b>2. Why are children not treated like adults in courts?</b> Because children are still learning and need reform.</p> <p><b>3. What lesson does Yuvaraj’s story teach about choices?</b> One wrong choice can affect many people.</p> <p><b>4. Why is honesty important even when we are afraid?</b> It helps solve problems fairly and builds trust.</p> <p><b>5. What was the effect of Yuvaraj’s action on his mental health?</b> He felt fear, guilt, and sadness.</p>

Board scaffold

- CPR = Keep oxygen + blood moving

Clarify:

- Only trained adults perform CPR with breaths.

Transition:

“But even before CPR... time decides life.”

Scene 3: Golden Hour + Red Cross (5 minutes)

Think–Pair–Share

- Question:  
“Why is the first one hour called ‘golden’?”

Teacher connects

- Golden = most valuable time
- Introduce Red Cross as helpers beyond hospitals

Transition:

“If saving lives is so important, then laws must support helpers.”

Scene 4: Motor Vehicles Act + Data Literacy (7 minutes)

Activity: “Read the Graph like a Detective”

- Ask learners:
  - Where are accidents highest?
  - Why highways?
- NO numbers drilling—only trends.

Link to law

- Laws protect:
  - Children

	<ul style="list-style-type: none"> <li>○ Pedestrians</li> <li>○ Good Samaritans</li> </ul> <p>Transition:</p> <p>“Knowing laws is not enough. Safety begins much earlier—every morning.”</p>

<p><b>Scholastic Questions</b></p> <ol style="list-style-type: none"> <li><b>1. Why should we call an ambulance first during an accident?</b> Because medical help is needed quickly to save life.</li> <li><b>2. What is the Golden Hour?</b> The first hour after an injury when treatment can save a life.</li> <li><b>3. Why is CPR done on a person who is not breathing properly?</b> To help blood and oxygen move in the body.</li> </ol>		

**4. Why should CPR be done in a rhythm?**

To keep blood moving regularly.

**5. If most accidents happen on highways, what does it tell us about speed?**

Higher speed increases the risk of accidents.

**6. Which road shows fewer accidents—busy roads or small roads?**

Small roads.

## A List of Interactive Webinars Delivered Under the Implementation of Project CACA

Dear teachers

- **For children**, the project unfolds through Safety Workbooks.
- **For parents, teachers and non-teaching staff**, the project unfolds year after year in the form of training, capacity building and sensitisation webinars.
- The webinars cover psychological, legal and academic aspects of children's safety and well-being.
- Our partner, supportive organisations, and team members comprise a resource-person pool of subject matter experts, like judges, panel advocates, psychologists, and academicians, who conduct these webinars.
- Webinars for Parents/Non-Teaching Staff is available in English, Hindi and Regional languages.
- Duration ranges from 40 minutes to 2 hours.
